Headline

Final-Year AI Student — Python, ML, Power BI — Web & Data Projects

Education

B.Sc. (Hons.) Artificial Intelligence, Aditya Degree College, Kakinada 2023–2026
CGPA: 8.0

Technical Skills

Languages: Python, C++, JavaScript

ML/Tools: NumPy, Pandas, Scikit-learn, OpenCV, Power BI

Web: HTML, CSS, Bootstrap, React.js, Tailwind, MERN Stack

Others: Git, VS Code, Jupyter

Internship

Data Analytics Intern, ULearn (Remote) Apr–May 2025

- Built dashboard on air quality using Power BI.
- Cleaned and visualized data using DAX.

Projects

Air Quality Dashboard – Power BI project on air quality analysis.

Weather Dashboard – React.js frontend with Tailwind and OpenWeather API.

YOLOv8 Object Detection (Ongoing) – Real-time detection system using OpenCV.

Speech Emotion Detection (Ongoing) – Classifier using Librosa + ML models.

Certifications

Python for Data Science – edX. Statistical Learning – edX. JavaScript Foundations – Mozilla
